

KITA MITCHELL

Making the most of Kita's visit

Beforehand

Announce the visit in assemblies as well as the school newsletter. Check out the teachers' resources on Kita's website and introduce the class to her books.

If the school has arranged for books to be available, please send the order form to families in plenty of time. Unless you are liaising with a bookshop, Kita will need approximate numbers a week before.

There's nothing an author likes better than questions, so encourage the children to think of lots in advance.

During

Kita will illustrate her talk using PowerPoint. Due to firewalls, it's best if she can use a USB stick with a school laptop, rather than her own. It helps if the technology is set up and ready to go on arrival.

She will need a small table for her props, and a flip chart and pens in case of technical failure.

After

@kitamitchell is happy for photos to be taken and shared on the school website and social media channels. Any feedback on the session or further questions from the class can be emailed to kita@kitamitchell.com
